

Toweryarder KMS

The new generation of toweryarders

The KMS 12 U is a remote controlled skyline crane which is mounted on a tandem trailer. The operation of the installation is remote controlled. To increase productivity, the carriage work fully automatic. Another comfortable aspect is that you can rig up the KMS 12 U by remote control. This installation connects a high grade of working safety with outstanding productivity.

- **Comfortable operation of all functions by remote control**
- **Automatic drive function**
- **Compact construction**
- **Strong pulling power**
- **High driving speed**

KONRAD

Toweryarder KMS 12 and KMS 12U

Technical data

KMS 12

KMS 12 U

Technical data	KMS 12	KMS 12 U
Carrying cable	D 22 mm komp./800m	D 22 mm komp./800m
Tension	120 kN (12 to)	120 kN (12 to)
Brake power	180 kN (18 to)	180 kN (18 to)
Anchoring cable	D 20 mm / 4 x 60 m	D 20 mm / 4 x 60 m
Drive	4 x hydraulic motors	4 x hydraulic motors
Motor	Iveco 8140	Iveco N40 ENT
Capacity	105 PS	150 PS
Hoisting cable	-	D 12 mm / 850 m
Hoisting tension	-	im Kern 45 kN (4,5 to)
Mounting cable	D 7 mm / 1200m	D 7 mm / 1200m
Mounting tension	max. 20 kN (2to)	max. 20 kN (2to)
Weight	7,5 to	9,7 to
Optional	Mounting hoist	Mounting hoist

This is the technical data of the standard design and is subject to change. Special constructions possible.
